JOIN THE CONVERSATION

Find us on Discord

Our Discord server is where local makers and hobbyists talk projects, ask for help, and hear about classes and who's coming in on Thursday. You don't need it to visit, but it's the best way to hear about things first.

SCAN TO JOIN — DISCORD

CGW Discord

Project talk with makers and hobbyists. Free and open to all.

GET INVOLVED

- **Volunteer.** Zone leads, classes, membership, facilities, and communications are all run by members.
- **Bring a group.** We host schools and clubs. Contact us to set up a time.

Support the shop

We are a volunteer-run 501(c)(3) public charity (EIN 27-3926809). Donations pay for rent, equipment, and free public programs, and are tax-deductible.

VISIT US

Come by on a Thursday

Open Hack Night is free and open to everyone, every Thursday from 6 to 8 pm. No membership, sign-up, or experience needed. Skipped only on major holidays.

ADDRESS

1404 Grand Ave
Columbia, MO 65203
Just off Business Loop 70, north of downtown

GETTING IN

Park in the gravel lot beside the building. Use the front door with the gear logo and ring the doorbell.

EMAIL

mail@columbiagadgetworks.org

Good to know

Wear closed-toe shoes; safety glasses are at the door. The shop is one level with a step-free entrance. Kids are welcome with a parent or guardian who stays with them.

COLUMBIA, MISSOURI · SINCE 2017

Columbia Gadget Works

A community workshop where anyone can learn, build, and fix things.

Free Open Hack Night

Every Thursday, 6 to 8 pm
No membership or experience required

1404 GRAND AVE, COLUMBIA, MO
COLUMBIAGADGETWORKS.ORG

WHO WE ARE

Columbia's community makerspace

A makerspace is a shared workshop. Think of a public library, but for tools. By pooling dues and donations, members share equipment few people could buy or fit at home, and share what they know about using it.

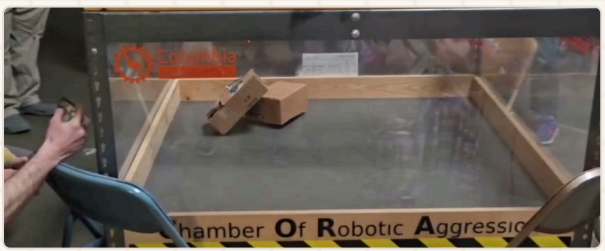

Columbia Gadget Works is a **volunteer-run, member-supported 501(c)(3) nonprofit**, in the same building on Grand Avenue since 2017. Our mission is an inclusive workshop where people of all skill levels can explore, learn, and build.

Thursdays, 6 to 8 pm · Free

What happens at Open Hack Night

- **Get a tour.** A member shows you every zone in about ten minutes.
- **Use the basic tools.** Hand tools, the electronics bench, and the 3D printers with a member's help.
- **See the big machines.** The laser, CNC, mill, and lathe need training, but someone will gladly demo them.
- **Bring a project, or don't.** A broken lamp, a half-built robot, a file to print, or nothing at all.

BUILT HERE

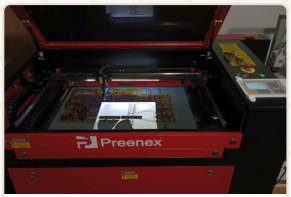

The Chamber of Robotic Aggression, a member-built combat robot arena. In 2020, members also designed the open-source Roll-to-Prone bed to help hospitals turn COVID-19 patients safely.

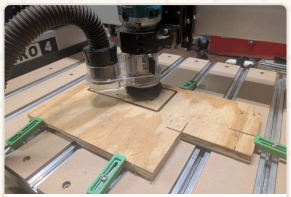

THE SHOP

Equipment

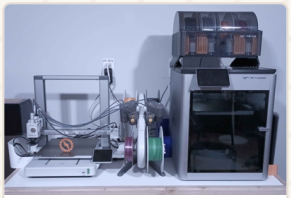

Shared like a library, in zones run by volunteer leads. Members use anything they're trained on.

Laser cutter
80 W CO_2. Cuts and engraves wood, acrylic, leather.

CNC router
Shapeoko 4 XL. Signs, parts, and furniture joinery.

3D printers
Bambu Lab X1 Carbon and A1, multi-color.

Metal shop
Bridgeport mill, Clausing lathe, MIG/TIG/stick welding.

Metal casting
Turn a 3D print into brass, bronze, or aluminum.

Electronics bench
Soldering, hot-air rework, oscilloscope, parts.

Woodshop
SawStop contractor table saw, plus a miter saw, band saw, planer, router table, drill press, and sanders.

The laser, CNC router, metal shop, casting, and table saw require training first. Tool guides and settings are on the wiki.

LEARN SOMETHING NEW

Free monthly classes

First Tuesday of every month, 6 to 8 pm

A free public class every month through October 2027. Topics rotate through every zone in the shop. No membership needed. Seats are limited, so sign up to save yours.

Recent classes include metal casting, soldering, machining on the mill and lathe, and a field trip to KOPN community radio. Members teach every class.
